EDUCATION

high school

2021 - 2025

CXXXVII Liceum Ogólnokształcące
im. Roberta Schumana

college

2025 -

Planning - management

Engineering at PW (part-time)

FINAL EXAMS

- 100 % - Speaking English
- 83 % - Polish oral exam

SKILLS

- AI application development with LLM (Gemini, Qwen), Claude)
- Proficient use of AI tools in development (e.g. Cursor).
- Full-stack development (JS/TS, React, Node.js, SQL).
- Product design and systems architecture.
- Fluent communication (English C1 and independent project management.

ABOUT ME

Creative this year's high school graduate and AI enthusiast, successfully developing complex AI applications such as "Naukado" on my own. I managed its full lifecycle: from concept, architecture and full-stack development (JS/TS, React, Node.js, PostgreSQL) to AI integration (Gemini, Qwen), extensively using Cursor AI for fast, high-quality results. My philosophy is to use AI as a partner to efficiently transform innovative ideas into refined products. With strong analytical skills, fluent English (C1), and a desire for self-development (e.g., reading "Zero to One"), I aim to bring a unique perspective and quick learning to valuable projects.

PROJECTS

NAUKADO APP - AN EDUCATIONAL AI-PLATFORM

Lead Project & Sole Developer (HUGE!!!!)

2025

- Architected and developing a complex, AI-powered educational platform (PWA/TWA) from concept to planned deployment.
- Full-stack development utilizing JavaScript/TypeScript, React for frontend, and Node.js for backend logic, API development, and database management (PostgreSQL with NeonDB)
- Development cycle and coding efficiency radically accelerated through daily, expert use of Cursor AI IDE.
- Private GitHub repository; live demo and in-depth architecture discussion available during interview

GEO-INWENT | OFICJALNA STRONA FIRMOWA

side project | <https://geo-inwent.pl>

2025

- Rapidly prototyped and deployed a professional business website in ~5 minutes, leveraging Cursor AI with Gemini 2.5 Pro for high-quality code and content generation.
